07 What role should the City of Calgary play in dealing with mental health and addiction?

We should be partnering with the provincial and federal governments, as well as non-profit organizations to provide supports for mental health and addiction. On City Council, we're not off in Edmonton or Ottawa, we see the struggles facing Calgarians every day and can't simply walk past without helping.

09

Statement: The City of Calgary should continue building new communities on its outer fringe. Agree or disagree and why?

Agree, though this should be combined with a much more significant effort to make better use of land we are already occupying and servicing. This means more Transit Oriented Communities, more mixed-use, and more diversity of housing within existing neighbourhoods.

13

What role should the City of Calgary play, if any, in ensuring there is adequate, affordable starter housing stock, or rentals available for young Calgarians?

For decades, other levels of governments have been dropping the ball on their responsibilities in building new housing stock. We must ensure development permits happen quickly, zoning is no longer a hurdle, and the City itself is investing in our future by building quality, mixed-use neighbourhoods on City owned land.
