04   **Do you support the use of property tax dollars for the downtown office-to-residential conversions? Why or why not?**

Yes, this Downtown Calgary Development Incentive Program helps with both the housing crisis and the downtown vibrancy. Its an investment in the future of Calgary.

05   **Do you believe the City of Calgary has a climate plan that will cost $87 billion in city tax dollars to implement?**

Yes

✓ **No**

06   **When was the last time you participated in a city council meeting in person?**

Naato'siyinnipi ASP - both at the IPC in July and Public Hearing in September (didn't get called on the day i was there in person though)

07   **What role should the City of Calgary play in dealing with mental health and addiction?**

The city works with many civic partners that have the resources to address some of the metal health and addiction issues we see on our streets. For example Alpha House outreach workers partner with Transit Peace Officers to provide support and connect vulnerable individuals on public transit to needed resources. Ultimately the responsibility for mental health and addiction care is with the Province but collaborating with .

08 **When you are making promises at the doors, are you informing voters on where the money will come from or what you will cut to make it happen?**

✓	**Yes.**
	No.

09 **Statement: The City of Calgary should continue building new communities on its outer fringe. Agree or disagree and why?**

Agree BUT only if we build the infrastructure to support that growth. When I was growing up in North Central Calgary it was "Low Density Sprawl"... so you could wait for the infrastructure to slowly fill in. However the density North of Stoney is now "High Density Sprawl." We can't wait like we used to, because we are already in an infrastructure deficit up here and growing rapidly without the needed infrastructure to support that population.

	No downtown Green Line

13 What role should the City of Calgary play, if any, in ensuring there is adequate, affordable starter housing stock, or rentals available for young Calgarians?

Affordable Housing is not affordable without proper transit. We are seeing everyone in the areas that they are putting affordable housing in our area need cars to get around. Building out a better transit system will make life a whole lot affordable for many young Calgarians.

15 What would you do to improve the City of Calgary's public engagement?

I will host frequent town halls and community engagement opportunities. I hope to make City processes easier to navigate by creating a subscription to follow developments on the DMAP. I also want to make City Council meetings more accessible. Expand viewing options for city council meetings. (radio/tv) I also want to investigate video submissions to council and provide resources at libraries on how to make submissions to council.
