### 04 Do you support the use of property tax dollars for the downtown office-to-residential conversions? Why or why not?

I support targeted investment in downtown office-to-residential conversions. Revitalizing underused buildings strengthens our tax base, attracts residents, and supports local businesses. However, funding must be transparent, results-driven, and ensure public value—private developers and other levels of government should share responsibility to keep the program sustainable and fair for all taxpayers.

### 05 Do you believe the City of Calgary has a climate plan that will cost \$87 billion in city tax dollars to implement?

Yes

No

### 06 When was the last time you participated in a city council meeting in person?

May 7 or 8 2025. WELAP

07

What role should the City of Calgary play in dealing with mental health and addiction?

Primary Health Care - which includes mental health and addictions - is the responsibility of the provincial government although the City has an important supporting role. The city must ensure safe public spaces, coordinate with service providers, and advocate for effective provincial supports—focusing municipal resources on citizen safety, crime prevention, and community partnerships that promote recovery.

08

When you are making promises at the doors, are you informing voters on where the money will come from or what you will cut to make it happen?

✓ Yes.

No.

09

Statement: The City of Calgary should continue building new communities on its outer fringe. Agree or disagree and why?

I agree that new communities have a role in Calgary's future where there is clear demand, provided growth is well-managed. We must balance renewal of existing neighbourhoods with smart expansion that supports housing affordability, job creation, and family choice—always ensuring infrastructure keeps pace and taxpayer dollars are used responsibly.

**What role should the City of Calgary play, if any, in ensuring there is adequate, affordable starter housing stock, or rentals available for young Calgarians?**

The City should play a supporting role by ensuring clear, efficient planning processes and encouraging a mix of housing options through zoning and smart incentives. We must work with developers and other levels of government to increase supply, reduce barriers, and keep Calgary an affordable place for young people to live and build their future.

**What would you do to improve the City of Calgary's public engagement?**

Improving public engagement starts with transparency—Calgarians deserve clear information before decisions are made so their input is meaningful. Second, engagement must be inclusive -- using online tools, town halls, and partnerships to reach residents across all communities. Finally, accountability is key; the City should clearly show how public feedback influences outcomes to rebuild trust in the process.
