04

Do you support the use of property tax dollars for the downtown office-to-residential conversions? Why or why not?

I do not support using property tax dollars for downtown office-to-residential conversions while families in Ward 3 struggle with basic services. Developers should not be subsidized at the expense of residents. Tax dollars must first deliver reliable transit, safe streets, and proper services in our communities.

05

Do you believe the City of Calgary has a climate plan that will cost \$87 billion in city tax dollars to implement?

Yes

☒ No

06

When was the last time you participated in a city council meeting in person?

September 2025

07

What role should the City of Calgary play in dealing with mental health and addiction?

The City should support mental health and addiction by funding community programs, outreach, and partnerships with schools and health providers. Treatment and prevention must be accessible where people live, while also ensuring neighbourhood safety. Stronger local supports save lives, reduce crime, and build healthier communities.

08

When you are making promises at the doors, are you informing voters on where the money will come from or what you will cut to make it happen?

✓ Yes.

No.

09

Statement: The City of Calgary should continue building new communities on its outer fringe. Agree or disagree and why?

Disagree. Calgary must first take care of existing communities where services have not kept up, schools, transit, and green space are still lacking in Ward 3. New fringe development without proper planning only repeats mistakes. Growth should be smart, balanced, and serve families, not just developers.

What's the best alignment option for the downtown portion of Calgary's Green Line?

Elevated line.

✓ Below ground.

Whatever way the province will fund.

No downtown Green Line

13

What role should the City of Calgary play, if any, in ensuring there is adequate, affordable starter housing stock, or rentals available for young Calgarians?

The City should promote affordable starter homes by supporting smart infills and upgrading aging housing stock, not cramming fourplexes into established neighbourhoods. Young Calgarians deserve real homes and safe rentals, built with proper standards, green space, and transit access. Affordability must come with dignity and quality of life.

15

What would you do to improve the City of Calgary's public engagement?

Public engagement must be real, not just a box to check. I would require plain-language information, visible notices in communities, and online tools that are easy to use. Most importantly, projects should only move forward with clear majority support from residents. Engagement must shape outcomes, not just record complaints.
