02 Do you support citywide rezoning?

Yes

✓ No

03 Based on your experience, rank these issues based on importance to your voters.

- 1 Property taxes
- 2 Citywide rezoning
- 3 Public safety
- 4 Infrastructure
- 5 Roads
- 6 Affordability
- 7 City hall transparency
- 8 Housing
- 9 Better public transit
- 10 Parks and open spaces

04 Do you support the use of property tax dollars for the downtown office-to-residential conversions? Why or why not?

I believe it is important to revitalize downtown, but I am not in favour of more money at this current time on office to residential conversions. There are more pressing priorities like basic infrastructure that require funding.

05 Do you believe the City of Calgary has a climate plan that will cost \$87 billion in city tax dollars to implement?

Yes

✓ No

06 When was the last time you participated in a city council meeting in person?

January 28, 2025

07 What role should the City of Calgary play in dealing with mental health and addiction?

Health Care is a provincial responsibility. The City should focus on safety and coordination, not running health care. I'll urge the Province to close Sheldon Chumir and relocate services with real community engagement and a full care continuum. We'll focus on keeping streets, transit and parks safe and clean and support a 24/7 downtown police station.

08

When you are making promises at the doors, are you informing voters on where the money will come from or what you will cut to make it happen?

✓ Yes.

No.

09

Statement: The City of Calgary should continue building new communities on its outer fringe. Agree or disagree and why?

I support building new communities on Calgary's outer fringe only if robust infrastructure and services (roads, transit, schools, water, etc.) are in place. Growth must be targeted and sensible, not unchecked sprawl or infill for its own sake. Calgary needs responsible development that truly serves families.

Choose the option that best represents your position on property taxes.

Increase by population growth + inflation.

Property tax cut.

Increase by inflation only.

Fluctuate year to year based on needs.

No clue.

✓ Other: Eliminate wasteful spending to minimize increases as much as possible, and capped at inflation.

12

What's the best alignment option for the downtown portion of Calgary's Green Line?

Elevated line.

Below ground.

✓ Whatever way the province will fund.

No downtown Green Line

13

What role should the City of Calgary play, if any, in ensuring there is adequate, affordable starter housing stock, or rentals available for young Calgarians?

As Ward 4 Councillor, I'll cut red tape, streamline approvals, and review development fees so builders can create more starter homes and rentals. The City should partner with the private sector, not impose mandates or blanket rezoning. The City can also make City owned land available to providers of affordable housing.

15

What would you do to improve the City of Calgary's public engagement?

The City should make engagement simple, accessible, and meaningful. We need to ensure clear, timely feedback on how public input shapes decisions. By focusing on transparency, reaching all communities, and prioritizing issues that matter most to residents, I hope to build trust and encourage active participation – so Calgarians feel heard and see real impact from their contributions. As Councillor, I will have an open communication policy and regular town halls.
