04

Do you support the use of property tax dollars for the downtown office-to-residential conversions? Why or why not?

I support converting offices to residential use if it is cost-effective, addresses housing shortages, and remains affordable for those in need. Projects should prioritize legitimate landlords, prevent scams, and ensure proper city management while supporting businesses that cannot afford office space

05

Do you believe the City of Calgary has a climate plan that will cost \$87 billion in city tax dollars to implement?

Yes

☒ No

06

When was the last time you participated in a city council meeting in person?

I haven't participated in city council in person.

07

What role should the City of Calgary play in dealing with mental health and addiction?

The City of Calgary should take an active role in supporting mental health and addiction services by funding accessible programs, collaborating with health agencies, and providing safe community spaces. The focus should be on prevention, early intervention, and helping residents access the care they need.

08

When you are making promises at the doors, are you informing voters on where the money will come from or what you will cut to make it happen?

✓ Yes.

No.

09

Statement: The City of Calgary should continue building new communities on its outer fringe. Agree or disagree and why?

Disagree – The city should prioritize sustainable growth by focusing on infill development, revitalizing existing neighborhoods, and making better use of current infrastructure. Expanding on the outer fringe can increase costs, strain services, and negatively impact the environment.

12

What's the best alignment option for the downtown portion of Calgary's Green Line?

Elevated line.

✓ Below ground.

Whatever way the province will fund.

No downtown Green Line

13

What role should the City of Calgary play, if any, in ensuring there is adequate, affordable starter housing stock, or rentals available for young Calgarians?

The City of Calgary should actively support the development of affordable starter homes and rental units for young residents by incentivizing builders, promoting responsible infill development, and partnering with nonprofit and private sectors. The goal is to ensure housing is accessible, safe, and sustainable for future generations.

15

What would you do to improve the City of Calgary's public engagement?

I would ensure community outposts act as accessible connections to each neighborhood, equipped with 24/7 CCTV to enhance safety. These outposts would allow residents to raise concerns and questions directly, ensuring timely action and follow-up. The goal is to make public engagement practical, responsive, and focused on addressing the real needs of the community.
